

# THE DROPOUTS

Introducing The Dropouts ; Springfield MO. \* July 2012

The Dropouts are a five piece professional and experienced group. Tight vocal harmonies and excellent musicianship put them a step above other bands. With three members taking lead vocals the band provides variety and a range of sound from classic rock to dance music.

A band with an extensive set list, The Dropouts play concerts, casinos, clubs, corporate events and private parties. Our songlist appeals to a wide age group and is large enough to suit any event.

Having also been the Osmond's band since 2001, and averaging 200 plus dates a year, including several tours of the USA, Canada and the UK. The Dropouts opened the 2012 'Up Close and Personal Tour' which was a 50 date UK tour in 60 days. In addition to being the support act The Dropouts were also the Osmond's band. Performing in top venues and major cities throughout the country they were seen by over 100,000 people and have built a large UK fan base.

Their first CD was produced for that tour and includes 12 cover tracks and has been a great success with requests for the band to return for their own tour.

Built onto this success The Dropouts are now available for booking during 2012/2013.
